Art Unit: 1774

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 3, 5, 8, 9, 11-19 and 21 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-11 of U.S. Patent No. 6,156,419 in view of Malhotra (5589277) for reasons of record and for reasons given below.

2. Claim 20 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-11 of U.S. Patent No. 6,156,419 in view of Malhotra (5589277) as applied to claims 1, 3, 5, 8, 9, 11-19 and 21 above, and further in view of Floegel et al. (US 6284339), Uemura et al. (US 6153305) or Kasahara et al. (6,165,606) for reasons of record and for reasons given below.

3. Applicant's arguments filed July 13, 2006 have been fully considered but they are not persuasive with respect to the non-statutory obviousness-type double patenting

Art Unit: 1774

rejections set forth above. Applicants' amendments and arguments have overcome all other previous grounds of rejection. Contrary to applicants' assertions, the examiner did not state that "it would have been obvious to one of ordinary skill in the art to utilize Malhotra's additive in Brugger's recording layer to obtain the advantages of the present invention." (emphasis added). The advantages that would motivate one to combine the references were those taught by the prior art and stated in the rejection. Applicants also suggest that Malhotra discloses a "particular coating composition" when Malhotra actually discloses a broad range of coatings that may include his additives. The additive is not taught as successful in a narrowly defined coating but in a broad range of coatings and with a broad range of materials known in the art. Applicants' arguments appear to be that no combination can be made that would be proper. This is not the case. Here, there is clear motivation to include the additives of Malhotra in an ink jet recording medium to obtain a medium with reduced curl and rapid drying times when imaged with aqueous ink.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pamela Schwartz whose telephone number is (571) 272-1528.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye, can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
